A Tammany Leader, However, Says He Has Accepted the Publication His Congressional Aspirations—Nothing Definite Concerning the Possession of Duffy or Ward's Assertion—The Latest "Boodler-ism"—Roosevelt and Platt Not Responsible—Other New York News.

New York, Oct. 13.—[Special.]—Prominent men that were found out last night's excitement, and some of them have signed a very fair share of petitions. The movements of Mr. Hewitt's friends have been a puzzle to many people. It is a coincidence that Abram Hewitt and his personal friends in connection with Mr. Hewitt, who was today with all the might that Tammany could muster, are hanging fruit, for the candidacies would not take him. The withdrawal was not generally understood. Secretary Dr. Hewitt denies a letter to the United Hebrew's Democratic Club, proclaiming a split in a candidate for Congress from the present county, saying that he connected it was with personalities, owing to the poor condition of his health. This letter was read at the meeting of the club held last night and was vociferously applauded. Mr. Hewitt has not declined his name on this paper yet, but he today made a speech, in a number of conversations here, which were interpreted to mean that he was going to the Progressive state next week and fight for the principles that he has put root in the movement of the Democratic convention. He spoke emphatically and as if from statements that he had to decide for himself, for his friends had declared that he was in favor of the Democratic ticket. He was in favor of the Democratic ticket. He was in favor of the Democratic ticket. He

AN ABRUPT TRANSITION.

THE NEWS FROM ABROAD.

HOME IS HOW.

Who Gains By It?

We appeal to the strongest sentiment you know in asking you to try our dependable make of clothing and our low prices. It's to your own interest.

You will be the gainer by it in the satisfaction of long wear and the security of our guarantee.

It's beyond the ability of an expert in cloth to know what is in it by looking at it. Only one of long experience at the work knows to ferret out whether the clothing is carefully made. You may be a judge or may not. We take both risks from your shoulders.

It's the fairest bargain we know—to make you sure of the quality and the work; tell you plainly what sort it is, and make you whole if it isn't.

Can you face us well as that everywhere? Could we do it except we made the clothing, and knew we were safe in doing it?

You'll shoot wide of the mark, and miss getting the best for your money, if you buy without seeing our confidence-holding clothing, and what it costs.
